

Does Unflinchingly To Death In Electric Chair

Harry Diamond, Gary
Indiana, Is Executed
for Wife Murder.

TALKS TO GUARDS

Diamond's Father and Mother
Make Futile Plea to Govern-
ment of Death Sentence.

INDIANAPOLIS, Ind., Nov. 13.—Harry Diamond, Gary, Ind., met death unflinchingly early today by the electric chair in the Indiana state prison for the murder of his wife who was shot while fleeing February 1923.

to his sister, Diamond is said to have confessed yesterday that he had killed her during an epileptic seizure.

When led to the chair he said to the guard, "You are more guilty of murder than I am."

Diamond's father and mother reached Indianapolis yesterday. They made a futile plea to Governor Branch for commutation of the death sentence.

ROLLMENT WEEK
FOR JUNIOR CLUB

Governor Fields Officially Sets
aside Next Week for Work of
Rural Boys and Girls.

FRANKFORT, Ky., Nov. 14.—(AP)—Junior Club Enrollment week was officially proclaimed by Governor Fields today in dedicating the last week of next week for boys and girls of rural Kentucky. The proclamation reads:

"We heartily endorse the state-wide campaign on one occasion by that noble scholar and statesman, Daniel Webster, to the effect that 'farmers are the founders of civilization and prosperity.'"

In grateful recognition of the aid of the College of Agriculture, of our state university in the organization and promotion of Junior Agricultural Clubs, I, W. J. Fields, governor of Kentucky, do hereby set aside, and proclaim the week of November 17 to 22 as Junior Club Enrollment Week.

"I respectfully urge that all the boys and girls of rural Kentucky take this opportunity to give to the state a pledge of loyalty to the young people of the open country the opportunity of developing themselves educationally, socially, and economically."

Through this channel much useful information is acquired, value is experienced in obtaining, and is clarified and broadened, and a much needed spirit of cooperation, both in work and in play, is continually maintained in youth.

The work of the clubs is so varied that it harmonizes with the home, the school, and the church in the development of childhood. We confidently hope for a large enrollment of all boys and girls of Kentucky who are eligible for membership in the Junior Agricultural Clubs of our Commonwealth.

Let us honor the farmer and his high calling, for they who labor the earth are chosen people of God.

ell County Roads
To Be Repaired

FRANKFORT, Ky., Nov. 14.—(AP)—Bids will be received by state highway commission Nov. 15 for construction of repairs to the Placerville-Hartsville road in Hartsville county. Joe S. Carter, state highway engineer, announced today.

The work calls for lightening the main trunk and connections, strengthening floor beams and girders, repainting, painting, new creosote wood floor and a new creosoted approach, he said.

FARM RELIEF IS BILL TO BE GIVEN A REST

Will Not Be Pressed
For Enactment at the
Next Congress.

NEED HAS PASSED

McNary Still Believes In Principle
of the Bill But Believes
the Emergency It Was to
Meet Has Passed.

WASHINGTON, Nov. 13.—(AP)—The McNary farm relief bill will not be pressed for enactment at the next congress, Senator McNary, republican from Oregon, said today upon his return to Washington.

The senator declares that he still believes in the bill as the fundamental principal of legislation, but felt that the emergency that it is designed to meet had passed.

Conditions of distress among the farmers are largely relieved except for cattle raisers who could not be assisted by the bill the senator added.

The Oregon senator is opposed to those who believe that co-operative marketing is the farmer's salvation, he said. Co-operative marketing is used successfully only when applying to special products where the producers control the produce and command the market, McNary said.

There was an eclipse in 1919, visible in Brazil and Central West Africa, and another last September seen by the people of California and Northern Mexico.

The accuracy with which the time and position can be predicted for an eclipse is high, Professor Brown went on to say. The staff of the United States Naval Observatory at Washington is always at work calculating the positions of the heavenly bodies years in advance in order that the predictions may be useful. The northern and southern edges of the shadow band can be laid down within a mile. Hence, when the almanac predicts that the southern edge will cross the upper end of Central Park in New York City it is fairly certain that the shadow will not keep off the grass. All this knowledge, however, is not a product of the present generation. It has been slowly accumulating through many centuries. Most of it is due to the work of the law of gravitation which was given by Isaac Newton toward the end of the 17th century.

Conflagration Rages Four Hours In Jersey City

Starts In Salt Petre
Plant and Spreads to
Other Structures.

MANY ARE INJURED

School Children Rush Out In
to Street As Terrific Ex-
plosion Tears of the Roof
and Hurls It For Blocks.

JERSEY CITY, N. J., Nov. 14.—(AP)—A conflagration which started in the salt petre plant at the Richardson chemical plant today spread to other structures.

The flames drove firemen back. A series of explosions threw terror into the Gammontown section. It broke windows within a half mile radius and drove residents panic-stricken into the streets.

Two thousand children from Gammontown rushed out of the building. As they came into the street a terrific explosion tore the roof from the plant and hurled it into the air scattering the pieces in all directions for blocks.

Five hundred policemen finally herded the terrorized children out of the danger zone. Many firemen were overcome by the fumes. When the south wall adjoining the American sugar companies huge plant craved in the entire structure was found too big a roaring mass of flames. All hope of saving it was abandoned.

The Hoboken fire department and fire boats from New York rushed to their assistance.

WET GOODS HAS LONG JOURNEY

Seventy-two Quarts of Gin! And
all the way from New Jersey to
this is what the baggage master on
train number 21 of the Louisville
and Nashville discovered Thursday
afternoon.

He was handling baggage when he came across a trunk with \$100.00 dollars excess baggage checked up against it.

He didn't think that there was anything strange about that but when he commenced to move it he felt that the contents seemed to be like a liquid being disturbed.

He reported the case and upon investigation it was found that 72 quarts of gin had been tenderly and carefully wrapped up within. The gin had come through on a ticket purchased at Newark New Jersey and there it was waiting to be claimed. Some one is out the price of a ticket, \$100.00 excess baggage, a trunk and all said words of tongue and pen, 72 quarts of gin and rejuvenator. It is reported that the trunk was taken to the local police court.

Barber Runs Amuck: Takes Lives of Four With Rifle

WINS HIS CASE
OVER LOST PIN

Has No Trouble In Making Out
His Case Although the Compa-
nies' Lawyer Objects.

FRANKFORT, Nov. 13. (AP)—The Fidelity & Casualty Company of New York issued a \$1,000 policy to Richard Wathen indemnifying him for all loss occasioned by him by theft of property within his residence at Bardstown Junction, Bullitt county.

Along came Christmas holiday time, 1921, and Wathen was invited to a neighboring town returning, he removed his collar and tie. He had worn a diamond stickpin. He stuck the pin in the tie and left it on the dresser. The door was locked.

In the course of the day he went to a neighboring village to buy some hogs. Unable to do so, he went to another village where he remained overnight. When he came home, he found the door locked as he left it. On entering he noticed nothing unusual. On dressing for a trip to Louisville, he later noticed his stickpin was not in his tie. He found no trace of burglary. He was a widower and lived alone with no servants.

OBITUARY NOTICES—50c per inch, minimum charge, \$1.00.

CUT OUT OF THE REPUBLICAN PARTY

If the verdict of Iowa voters and the voters of the country in general is to be read aright, Senators Brookhart and LaFollette are no longer republicans and the republican voters of their respective states owe no allegiance to them.

For the past two terms as senator, LaFollette has been at variance with republican views on almost every question. He has been and is, a political opportunist. In the campaign that closed with the election of November 4th, Mr. LaFollette was an opportunist—an opportunist who failed to read the country aright. As for Senator Brookhart, he remained in the party with the sole object in view, of profiting in event of a party defeat. The repudiation of his stand, by the republican voters of Iowa, was a signal victory for the administration.

Iowa citizenship in general and Iowa republicanism has lost much of the populistic tinge of thirty years ago. A home owning and prosperous state which has piled up agricultural wealth if not population, in the past twenty years, it has become more and more conservative. The wonder of it all is, that political forecasters failed to read the political viewpoint of the state so poorly.

As for seniority rights in the republican organization, the two senators have none—they have forfeited every claim to such. It cannot be expected that all republicans as well as all democrats, will be moulded in the same form. It is good for both parties and the country, whose government is divided between them in alternate cycles, that they should not be.

The revolt in the South against tried and true party politics is not a revolt against the democratic party but a revolt against a system of politics that gets the South nowhere politically. It is regarded as a unit on a certain phase of government. It always delivers and hence gets little consideration in party councils because there is no question where the Southern states will be found.

Republicanism in the North and democracy in the South should never be made to follow hard and fast lines. A slight doubt in the status of a state always leads to the virile strength of both parties in the state—New York and Ohio are specific instances of such doubt, and their status in party councils are object lessons to other states who would stand high in national affairs. Kentucky and Tennessee are getting into the same class.

Any citizen has the right of independent thought. He has a right to break with his party and go out of it but he has no right to bore from within for his own political aggrandizement. Mr. LaFollette and Mr. Brookhart are shining examples of such mode of political expediency. That they have been repudiated by the voters is but another example that the great body of the American electorate still loves a square shooter and will not be beguiled by any political opportunists who try to ride the party wagon and walk in the road at the same time.

Did You Ever Stop to Think

By E. R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

THAT the purchase of advertising space by jobbers and manufacturers is not a speculation, but a substantial investment.

THAT if their goods are quality goods and can stand the test, they should keep the goods before the public with truthful advertising.

THAT it will create a demand.

THAT it is the biggest help in selling goods.

THAT it will make steady customers.

THAT it will introduce the goods into a new field.

THAT it will build a business.

THAT advertising is necessary to any business.

THAT no business can succeed without it.

THAT goods that can't be advertised cannot get anywhere.

THAT goods that are made to imitate advertised goods can't stand the test.

THAT if fake goods are sold, the public soon finds it out.

THAT when they get stung once by buying imitations of quality goods, that is enough.

THAT they usually let their friends know how, who and what stung them.

THAT is the way the stinger gets stung.

IT PAYS TO GET THE HABIT of buying advertised goods. When you do, you get quality goods.

LESSON NO. 5

LIGHTING THE LIVING ROOM

The living room is usually not only the largest room in the house, but it is also the room that is most used. In most homes it serves as the sitting room, the parlor, the library and the music room.

Because we do so many different things in this room, we need lighting that can be changed and varied to suit our purpose. For example, if we wish to entertain our friends by dancing or playing cards, we should be able to flood the whole room with plenty of soft, cheerful light; if we wish to read or sew, we should be able to have the light come over our shoulder from behind a favorite chair; if we wish to play the piano and sing, we should have the music well lighted. At all times the lighting effect should be pleasant and attractive.

To get these effects, we need three different kinds of lighting equipment in the room. First we have a fixture hung from the ceiling with which we can flood the room with light; then we have table lamps and floor lamps which are portable and can be moved about as furniture is rearranged, to give a good reading light. Finally, we

as long as it is wide, two ceiling fixtures should be used.

There are several kinds of fixtures which will provide good lighting in the living room. Some of these are shown in the Home Lighting Primer on page 23. Some are shown in the next picture.

The bulbs in these fixtures vary in number, but the total watts necessary for good lighting is from 100 to 250 watts.

The shades may be of glass, silk or parchment. They should completely hide the bulb and should be dense enough so that the whole surface of the shade is evenly lighted. A bright spot in the center of the shade means that the shade is not dense enough, and that some glare is present.

The use of all frosted bulbs will often do away with shadows of chains which would otherwise be cast on the ceiling.

PORTABLE LAMPS

Portable lamps include floor lamps, table lamps and small pedestal lamps, candlesticks, torches, etc., for mantel and bookcase. The

may have bracket fixtures on the walls which give us charming spots of colored light—never too bright and only used to add attractive decoration to our other lighting.

"Bulbs" are known by the amount of electricity it takes to light them. The unit by which they are classified is the "Watt" and bills for electric lighting current are rendered in terms of a "kilowatt-hour," which is one thousand watt for one hour, or one hundred watts for ten hours.

The total watts needed in any room depends upon the size of the room, the kind of fixtures used, the color of the decorations and the lighting effect wanted. In most rooms good lighting may require as little as one or as much as five watts of bulbs for each square foot of floor area in the room.

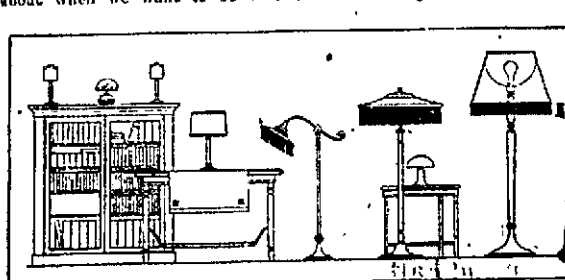

Here are the things to think about when we want to be sure

best portable lamps have shades which are deep enough to hide the bulbs and dense enough to prevent glare. Some are built to send more light up toward the ceiling as well as down toward the table or floor.

These use large bulbs and are designed to provide general lighting by reflection from the ceiling as well as local lighting. Portable lamps from which more is required than merely decoration will need bulbs which have a total of 50 to 100 watts or more; in the interests of economy, those which are merely a decoration do not need more than a 25-watt bulb. Duplex outlets in the headboard permit the greatest convenience and use of portable lamps for lighting.

WALL BRACKETS

Sometimes people try to provide general lighting for the entire room with wall brackets. Except under unusual circumstances, this leads to one result—the use of larger bulbs whose brightness is annoying.

we have good lighting in the living room. 1. Do we have plenty of light where we need it? 2. Are all the bulbs shaded so that we do not have any glare? 3. Does the lighting equipment look well in the room, and does it fit both the furniture and the woodwork?

THE CEILING FIXTURE Unless the living room is very large only one fixture is needed on the ceiling. However, if the room is long and narrow—perhaps twice

The man who insists on being the life of the party is very often the one who bores you to death.

Bracket fixtures on the walls are merely decorative spots of colored light. Since they are almost always directly in front of the eyes of someone in the room, a light bright enough to furnish useful light soon becomes annoying and causes eyestrain.

It is most important that these be well shaded, so that glare does not prevent their effectiveness as a beautiful decoration. The use of bulbs larger than the 15 or 25-watt size cannot be recommended.

When woman's place isn't in the home everything else is out of place also.

EVERETT TRUE—By Condo

HUNT'S DAILY LETTER

BY HARRY B. HUNT

NEA Service Writer

WASHINGTON—With an eye to the future, when they hope to see a woman riding down Pennsylvania avenue at the head of an inaugural parade, members of the National Woman's Party and the National League of Women Voters are hoping "Mr. Ferguson of Texas and 'Our Nellies' of Wyoming will come to Washington to participate in the Coolidge inauguration on March 4.

Although both are Democrats, as visiting chief executives of sovereign states they would be accorded places in the inaugural parade. And as the first women ever to be elected to such high office it is felt that their participation in the ceremonies would place the whole status of women as possible future contenders for the presidency, in a new and more favorable light.

THE journalistic classic of the campaign came the day after the election. It disclosed one and for all the real reason behind the Coolidge landslide.

And it revealed as the prize picker of presidents, in his own confession, none other than Colonel George Brenton Harvey, ex-Democrat, ex-ambassador to Great Britain.

The Washington newspaper which Harvey now edits took no less than six columns of type to tell how George, when calamity faced the party of his adoption, and the Democratic-Progressive assault seemed certain to sweep Coolidge from power, planned his pen into the ink and saved the day with his battery of "Coolidge or Chaos."

"Colonel Harvey," says the account, "with one bold and illuminating stroke, disclosed to the distracted people the sole, vital, paramount issue that confronted them."

"When George Harvey," — member, George is saying it in

the paper he edited—"became the editor of the Washington Post," the Post avers, "the Republican party was in a state of demoralization, prepared to take its licking lying down."

"He made it stand up, fight and win!"

That certainly ought to get George the prize plum on the presidential pie counter.

A NEW wrinkle in court procedure was demonstrated by Manuel Herrick, former "daredevil of Congress" from Oklahoma, when he appeared in court as his own attorney in his suit asking \$50,000 damages because Miss Ethelyn Crane, his former secretary, refused to marry him.

Technically, it was a breach of promise case, but the judge ruled only evidence could be admitted bearing on the extent, if any, to which Herrick had been "damaged."

As attorney, Herrick propounded questions to himself. As client he answered them.

Although enjoined as an individual from speaking to Miss Crane, or in any way annoying her, as attorney for plaintiff Herrick he was able to put her through cross-examination.

"WHAT is your name?" Attorney Herrick asked himself as Plaintiff Herrick took his seat in the witness chair.

"My name is Manuel Herrick and I am from Oklahoma," was the reply.

Herrick then proceeded to itemize the amount of damages he had sustained. He claimed \$15,000 he would have received as salary had he been re-elected to Congress. Difficulties concerning his betrothal, he said, were responsible for his losing the election.

The other \$35,000, he said, was about a proper amount for the loss of the defendant's "love and affection, and whatever home-making qualities she might have had."

Berea College Is Group of Schools

BEREA, Ky., Nov. 13.—What is known over the South as Berea College, the largest mountain school in that territory, is in reality divided into several schools all under the same head, Prof. William J. Hutchins, Yale graduate, the president.

The Foundation School is for those who have not had advantage of any amount of early schooling, he explained today.

"In this school even adults may start on the road to an education and self-betterment," he said.

Many of the Foundation students go on to the Academy and then through the college. The Training School is for boys and girls of the Berea community under fifteen years of age. The Academy is a first grade preparatory school. Here the students are fitted for entrance into college and professional schools.

The vocational school offers courses in business, agriculture, nursing, carpentry and other practical subjects. The normal school prepares teachers for the rural mountain schools. "These native mountaineers make excellent teachers among the persons whose problems they can appreciate and understand," Prof. Hutchins said, adding:

Let us be thankful all the girls chewing gum are not chewing tobacco.

Closed autos are the most popular in winter, while closed months are popular the year around.

It is estimated cigarette have burned a billion holes in shirts.

Let us be thankful all clock stockings don't run.

If we got everything we wanted the world wouldn't be big enough to keep it all on.

HOW DOCTORS TREAT COLDS AND THE FLU

To break up a cold over night or to cut short an attack of grippe, influenza or sore throat, physical and druggists are now recommending Calotabs, the new-calss (Calmette) tablets, that is purified from dangerous and sleeping effects. Those who have tried it say that it acts like magic by far more effective and certain than the old style calomel, heretofore recommended by physicians.

One or two Calotabs at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with eating, work or pleasure. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the test-pocket size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted. —Ad.

For Goitre Prevention

It is a question for mothers to decide right now whether they will continue to use ordinary salt and run the chance of the children becoming afflicted with Goiter—or MULKEY'S IODINE SALT which is a goiter preventive recommended by health authorities throughout the country. In some places more than half the school children, especially girls, have goiter. That is because they do not get enough iodine in their food.

MULKEY'S is the original iodine salt distributed through the grocery trade. Ask for it by name.

KENTUCKY

COMBUSTION DESTROYS BARN

LEBANON, Nov. 14.—Spontaneous combustion in 15 tons of hay destroyed a barn owned by H. J. Cooper, fourteen head of hogs perished and an automobile was burned.

BAPTIST MINISTER SHOOT MAN

PINEVILLE, Ky., Nov. 14.—The Bell County grand jury will investigate the shooting Tuesday night of Human Burns, 21 years old, by Leonard Evans, 35, a Baptist evangelist of Waverly. The preacher is in jail and the wounded man is at the Wilson Hospital. The shooting occurred on the street near the Astor Cafe. Two bullets struck Burns' leg, shattering the thigh bone. It was said that the feeling had existed between the men for some time.

Patrolman Lee Scott reported that while he was taking Evans to jail he said that he had been looking for Burns because of his alleged attentions to his wife. Police alleged that without saying a word Evans walked up to Burns, drew a pistol, and began shooting.

PLEADS FOR CRIPPLED CHILDREN

PARIS, Ky., Nov. 14.—Pleading for the crippled children of Kentucky, Miss Marion Williamson, executive secretary of the Kentucky Society for Crippled Children and of the Kentucky Crippled Children's commission, told members of the Paris Rotary club at the weekly luncheon at the Hotel Windsor, that there are in the neighborhood of 20,000 crippled children in Kentucky now and impressed upon the members the fact that there is an urgent need that these unfortunate children be both educated and treated that they may grow up to become "tax producers instead of tax consumers."

TENNESSEE

TAZEWELL ROAD REPAIRED

TAZEWELL, Nov. 14.—The state highway between Tazewell and Cedar Fork being repaired and when completed will be a first class road.

STILLS RAIDED, ARREST MADE

MOUNTAIN CITY, Tenn., Nov. 14.—Sergeant Greener, assisted by Deputy Joe Grindstaff, located near Butler a 40-gallon still and a 30-gallon still. These together with a number of barrels of beer, were destroyed. Clyde Netherly was arrested and bound over on a bond of \$1,000.

MERCHANT DIES OF ROBBER'S BLOW

CHATTANOOGA, Tenn., Nov. 14.—Richard Seiler, 70 years old, prominent falling water, Tenn. merchant, died as the result of a fractured skull, inflicted by a blackjack or some blunt instrument in the hands of an unidentified highwayman. The aged man was found lying in the floor of his small general store having been knocked in the head and robbed. He died without regaining consciousness.

AUTO COLLISION MAY PROVE FATAL

MARYVILLE, Tenn., Nov. 14.—As the result of an auto collision on the Sevierville pike a mile and one-half from Maryville, Jake Lane, 48 years old, is in McMahan hospital at Alton not expected to live, while Tom Stephens, a young man, occupant of the Lane automobile, is in the hospital suffering from injuries which may prove fatal. His shoulder was broken among other injuries. Cal and Albert Lane, sons of Jake Lane, who were in the car also.

The accident is said to have been due to the failure of both drivers to dim their lights.

The second car in the smash was driven by a youth named Everett, who had three boys with him. It is reported. None of the party was injured except for minor bruises. Both cars were almost demolished by the accident.

WATER RATES TO GO BEFORE STATE CORPORATION COMMISSION

NORTON, Va., Nov. 14.—Norton's water rates will probably go before the state corporation commission for final determination, according to a resolution unanimously adopted by the council in regular session Thursday night. Application for an increase in water rates, which the company states is necessary to maintain the local service and make required expansion has been before the council for several months. The 30 year franchise, starting from 1907, still has a dozen years to run, and the water committee of the council, on advice of John Roberts, town attorney, C. P. Kline chairman, has reported that the franchise rate cannot be increased except by permission of the council.

Greenland Eskimos Most Intelligent

COPENHAGEN, Nov. 14. (AP)—After an absence of three years while mapping the archipelago between Greenland and America, during which he was the first white man to cross Baffinland, the Danish explorer, Peder Freuchen, returned to Copenhagen to publish the maps and books concerning his discoveries. Freuchen brought with him a unique botanical and zoological collection.

The Greenland Eskimo is far superior in hunting, courage and economy to the American Eskimo, he said in an interview.

A Striking Costume

A striking combination of plaid and plain material is the secret of this costume's success. The front is absolutely plain. The plaid material is lined with overchecks of gray chenille. The plain portion is blue satin. The hat is most interesting, with its wide chin strap and studied plainness.

Of The M. E. Church

Spent Day at Kenton Hall

The women of the M. E. church spent the day sewing Thursday at Kenton hall. They are preparing for their annual bazaar which is to take place Thursday, December 11th at Kenton hall. At three o'clock the mission study was given by Mesdames C. Britton, D. G. Hinks, and M. E. Brown. At this time the last two chapters of the book, "The Child and America's Future" were given, which has proved to be a most interesting study.

Red Rose Troop Of Girl Scouts Entertains

Members of the Red Rose Troop of the Girl Scouts entertained Thursday evening from 7:30 until 9:00 with a surprise shower for Miss Sadie Easter at her home on Chester avenue in honor of her 15th birthday.

The evening was spent in playing games. About 20 guests were present. Refreshments consisting of punch, cakes, mint and fruit were served.

Honors House Guest

With Bridge Luncheon

Mrs. Theodore Zimmerman entertained delightfully with eight tables of bridge at her home in the Carlton apartments Thursday afternoon.

The party was honoring Mrs. W. D. Penney of Norwalk, Connecticut who is a house guest of Mrs. Zimmerman. A dainty plate lunch was served.

The out-of-town guests were Mrs. Ritchie of Huntington, West Virginia and Mrs. David Colson of Asheville, North Carolina.

Presbyterian Sunday School Entertains

The First Presbyterian Sunday school was divided into two teams known as the "A's" and the "B's" with captains over each. These teams competed for the Italy Day contest with the understanding that the losing team was to entertain the winners.

Tonight Captain Fulton Huff and his followers will have the distinct honor of entertaining Captain Hedrick Haynes and her noble workers at the Presbyterian church. The social will be held in the primary room at 7:00 p. m. All are looking forward to a great time.

Mr. and Mrs. William Riggins and family from Speedwell spent the day with Mr. and Mrs. H. D. Williamson.

Entertain Young People

Of M. E. Church South

Mr. and Mrs. J. E. Savage of the M. E. church south entertained a group of young people at the parish house Thursday evening.

A series of contests furnished entertainment for the first part of the evening. An automobile contest presented in the form of rhymes was one of the pleasant features. The object of this game was to see who could guess correctly the greatest number of trade names. A character sketch skit was another novel means of entertainment.

A long to be remembered stunt was the mock wedding. Strange to relate this was a woman's affair. Two of the boys in the Sunday school acted as the principals. The bride was charmingly dressed and the groom was handsome in his wedding finery. The gala event was carried out in true blue grass style.

A musical program consisting of vocal and instrumental numbers was enjoyed by the party. Refreshments of punch and wafers were served. Thirty guests were present.

Circles Of First Baptist Church

Held Enjoyable Meeting

Circle No. 1—Met Thursday afternoon at the home of Mrs. James Gofforth. Mrs. C. E. Oley acted in the capacity of chairman. Twenty-two members were in attendance. After the opening song and prayer, Mrs. Morris, the Red Cross nurse gave instructions concerning the work to be done during the term. The minutes and roll call were given after which refreshments were served by the hostess. The next meeting will be held at the home of Mrs. Frank Tucker.

Circle No. 2—Met at the home of Mrs. G. R. Lohow, Mrs. A. C. Shugbary was chairman of the meeting. After the devotional the time was spent in doing work for the local Red Cross. Sixteen members were present. The circle will meet with Mrs. John Gibson next session and all are urged to be present.

Circle No. 3—Met at the home of Mrs. Sam P. Martin. Mrs. B. G. Allison acted as chairman. The meeting opened with a business session. Ten members were present to carry on the work. In place of the personal service was a round table on "Missions" occupied the attention of the gathering. Mrs. Martin served a salad course during the social hour. The next circle meeting will be with Mrs. B. H. Campbell.

Circle No. 4—Met with Mrs. O. R. Austin. Mrs. C. G. Brummett

presided in the absence of the regular chairman. Following the disposal of business, scripture passages were read. The work of the afternoon was devoted to Red Cross preparations. Mrs. T. R. Hill offered the closing prayer. There were ten members and one guest present. A delightful plate lunch was served at the conclusion of the day. Mrs. C. G. Brummett invited the circle to hold the next meeting at her home.

LOCALS

Miss Eva Powell of Rochester avenue is very ill at her home.

Guaranteed horse for Christmas. Mrs. F. S. Culverhouse. Phone 714-W.

Mrs. S. M. Bailey of Ewing was shopping in Middlesboro Thursday.

Mr. S. S. Lawson of Cobbin transferred business in Middlesboro yesterday.

Mrs. Ruth Cokerell of Cumberland Gap is in this city today.

Mrs. Frank Bales of Blue Bell, Va., is visiting her sister, Mrs. G. B. Carter and family.

Mrs. David G. Colson will have with her for a visit next Wednesday, Mrs. James P. Simms, of Birmingham, Alabama, and Mrs. Julian Holsten, of South Carolina. Mrs. Colson is entertaining with a series of parties for the ladies.

Vandals are destroying the time cards on the city mail boxes according to Postmaster Miller. This is a serious offense and if the offenders are caught it will go hard with them. It causes a great deal of trouble for the local carriers and the general public as well. If anyone is caught in the act of destroying this public property they will be prosecuted to the full extent of the law.

The school authorities wish to thank the people who have so generously contributed children's clothes to the local school. There is still a demand for shoes. Sizes for children around the years of six and seven are in greatest demand.

Basketball All Set For Court Season

Arrangements are rapidly being concluded for a playing schedule of the basketball teams who wish to enter the league. Practice games will start during the coming week. There will be a meeting in the offices of the Playground Association tonight at seven o'clock when definite arrangements will be concluded. We invite all those who want to get on the gym floor to attend this meeting.

CLASSIFIED WANT DIRECTORY

CLASSIFIED—(Undisplayed) cash with order, 2c per word first insertion, 1c per word subsequent insertions. No advertisement taken for less than 20c. Classified display on special contract by month or year.

NUTRITIVE VALUE OF CUTS OF BEEF

Food Value of the Cheaper Cuts Is Often as Great as That of the More Expensive Meats.

There probably never before has been a time when there has been such a wide range of prices for the various grades of beef, according to C. F. Huff, manager of Armour and company's Middlesboro branch. Beef in the carcass can be bought generally today for 6 1/2 cents a pound, or 22 cents a pound, or at most any figure in between those two extremes. The cheapest carcasses are made from light grass-fed cattle of which there is a plentiful supply and for which there is a small demand. The highest price is being paid for choice corn-fed yearling steers.

It is interesting, incidentally, to know that the nutritive value of a sirloin steak from a 6 1/2 cent carcass is just as high as the nutritive value of the sirloin steak from the 22 cent carcass. The only difference between the two kinds of meat is simply a matter of palatability which may be equalized by efficiency in cooking.

At this season of the year, and particularly this year, due to the extended grazing season on the western ranches, there are a great many grass-fed cattle in the market, both cows and steers. The grass-fed western cows are those that constitute the grade from that which which the 6 1/2 cent carcasses come, while the light yearling corn-fed beef is the one which is in the greatest demand, and the supply of which is most limited. The heavy cattle that are in particular demand in the east and which at one time made the beef which seemed to be the choice of American taste, do not command so great a price as do the lighter carcasses. That is because a considerable portion of the demand that previously existed for the heavy animal has lifted, perhaps with the decrease in the size of the American family, to the "baby beef."

All the beef animals that are being received on the markets must be disposed of because the animals are not marketed as a general rule until such time as further feeding would become unprofitable. The packer must dispose of the fresh product as quickly as possible to prevent deterioration. This is one of the reasons why there is a 6 cent beef. If it so happened that the American public most desired the grass cows, then the price of that grade of beef would be higher and the price of yearling beef would be proportionately less, because carcasses meat can command only such a price as will cause it to move freely into consumption.

Any attempt to hold the meat for higher prices would result in a choking up of market arteries and the spoiling of the product, principally because the packer has absolutely no control over the quality or the quantity of animals that are marketed from day to day. That depends entirely upon the livestock producer and his interpretation of the market.

Salvation Army Gives Report

Salvation Army report for the month of October, 1924.

Income	
Bal. brought forward	\$ 99
Community Chest	200.00
Total	\$299.00
Expenses

Far West

Oregon vs. Washington State at Portland.

Stanford vs. Montana at Palo Alto.

California vs. Nevada at Berkeley.

Oregon Aggies vs. Pacific at Corvallis.

Southern California vs. Whittier at Los Angeles.

RARE CAMERA ART DISCLOSED

Photography of Night Scenes in the Film Play "Sea Hawk" Are Said to Be Unsurpassed.

In Frank Lloyd's production of "The Sea Hawk" which will appear at the Manning Theatre matinee and night Monday and Tuesday, Nov. 17 and 18, the photography is one of the most discussed points of the big National spectacle.

The script called for several difficult night scenes of ships at some points more than a half mile away from the camera yet Norbert F. Brodin, the camera man, with the co-operation of Mr. Lloyd and the crews of the ships has produced some startling results.

Mr. Brodin has photographed a ship with its mainmast prominent 105 feet above the water line, coming with her sails billowing in the wind, toward the camera, from out the darkness of the night with the effect of a ghost arising from ethereal nothingness. By expert knowledge of light and composition he has pictured the picturesque Moorish galleon of Sakrel-Bahr, being rowed by her galley slaves across the horizon, with

great artists.
The difficult sea scenes and night scenes are not alone. Mr. Brodin's accomplishments in recording "The Sea Hawk." The lighting of certain, having English interiors and the photographic quality of the scenes at the auction block where Rosamund, the English gentlewoman and the Andalusian girl are sold to the Moogish merchants are scenes of rare artistic technique. As to photographing of individuals, his action portraits of Milton Sills and Eud Bennett border on the remarkable and within the confines of the Turkish court Mr. Brodin has brought to mind a number of famous old paintings and tapestries by his handling of Frank Currier.

JUST COMING IN

A NEW LINE OF OVERSTUFFED LIVING ROOM SUITS.
These are covered in the latest upholstering fabrics and colors. These suits are made in our own factory and are offered to our customers at a very small margin of profit above actual cost of manufacture. Furniture prices are taking an upward trend and we look for materially higher prices by the beginning of the new year.
Now is the time to select one of these beautiful suits before the general advance.
